

Puppy Contract for Gucci Frenchies
Vanessa Whiting | 319-231-5993 | Polk City, Iowa

Thank you for choosing a Gucci Frenchies baby to add to your new family! All puppies are raised in our home with love and care! All puppies will come with age-appropriate shots and deworming. Puppies will be started with grass pad training and come well socialized with a puppy care pack!

Seller: _____ **Buyer:** _____

Agreement to enter into this contract under the following binding agreement:

Puppy Description: _____

Whelped: _____ **Sire:** _____ **Dam:** _____

Registration: Seller and Buyer agree that the above-described puppy is a purebred French Bulldog. Registration papers will be filled out after the sale is complete and will be forwarded to the Buyer if the registration papers are not available at the time of sale. Seller will provide paperwork necessary for registration with the American Kennel Club.

Purchase Price: Buyer agrees to a total payment of \$ _____ USD. Seller will accept a \$ _____ nonrefundable deposit* to hold puppy in buyers name until full payment is received. The order in which deposits are received determines the order in which the Buyers choose their puppy. The puppy will not be delivered until full payment is received and the puppy is at least 8 weeks of age. All puppies must be paid in full by 7 weeks of age unless the new owner is to pick up in person and must bring cash. No checks will be accepted at that time. Deposit payments can be made by cash, Venmo, Cash App, Zelle, or wire transfer. Final payment must be made in cash or bank wire transfer. **Once the puppy is purchased there are no refunds, full or partial.** We want all our puppies to have wonderful homes. If the puppy does not work for your family or breeding program, we will do our best to help find he or she a wonderful new home.

Health Guarantee: Puppy is to be health checked by a licensed vet within 96 hrs of possession unless otherwise communicated to us that is not possible before the 96 hrs. A copy of this certification must be sent to Gucci Frenchies within a week for health guarantee to be in effect. We **STRONGLY** recommend a vet check for your protection and ours. Although a conscious effort is made by Gucci Frenchies to breed and produce healthy, sound bulldogs, the buyer is aware and understands that due to the nature of the breed bulldogs are predisposed to certain breed specific issues that are **NOT GUARANTEED**. Most of which can also be caused by environmental and not genetic factors. The puppy is warranted for one year against fatal and life altering genetic diseases: including severe hip dysplasia, kidney, heart, pancreas, or liver problems. Conditions must be of a severe life-threatening nature. This contract does **NOT** cover normal conditions of this breed such as: cherry eye, entropion or ectropion, loose hips or knees, allergies, soft pallet issues, trachea issues, stenotic nares, inverted tails, uneven bits, skin allergies, fertility issues, parasitic, fungal or bacterial infections, respiratory infections, immune deficiencies, undescending testicles, butterfly vertebrae, localized demodex, etc. Hemivertebrae are also not covered as all French Bulldogs (brachiocephalic breeds in general) are considered to be predisposed to Hemivertebrae because of the breed characteristic of the screw-tail. Hemivertebrae are bones of the spine that are abnormally shaped. It is VERY important to not let them jump from beds, chairs, couches, etc. as this can lead to hip, spine, and/or elbow injuries. Coccidiosis, giardia, or kennel cough are not covered in this contract but are easily treatable and can be common in puppies. Sometimes these come about from the stress of moving to their new home. Although we try our best to deliver 100% free of these conditions, they may show up during the stress of transport and changing environments. We do NOT breed with undesirable conditions; however, we cannot guarantee that previous generations did not have these conditions in their lineage. Therefore, we cannot guarantee these conditions will not show up unbeknownst to us in future litters. It is also very important to have a vet that is knowledgeable about the bulldog breed. A puppy that has died from anesthesia as a result of being put under for surgery is not covered in this contract. Putting a bulldog under requires a skilled and knowledgeable vet and all necessary precautions to be in place. Any physical problem which is or could be caused by accident, injury, neglect, or poor diet, is also not covered in this contract.

It is understood that the seller assumes no responsibility after the puppy leaves the premises for any change of mind on the buyers' part such as landlord's disapproval, allergies, disagreement of family, trouble with housebreaking etc. Please let me know, however, because I will be happy to try to find a new home replacement!

Puppy must show defect within one year of age. Seller must be notified of problem within seven days of diagnosis. Buyer must have reports from two different licensed veterinarians from two unassociated veterinarian clinics. These reports must reach same diagnosis and conclusion. Buyer must obtain all records and get them to seller within seven days of the first diagnosis in order for the seller's vet to also review them. Buyers must return the puppy to the seller within 14 days of the report of the first diagnosis. Return of the puppy to the seller is at the buyer's expense. The seller will replace the affected puppy with a puppy of equal value and the same sex at the seller's discretion when one becomes available. To validate this health guarantee the buyer must have the dog examined by a licensed veterinarian in the state the buyer resides in within 96 hours of receiving the said puppy. Affected puppy must be in good condition other than the specified condition. Buyer is responsible for all the shipping costs, including shipping the affected puppy to the seller as well as shipping the replacement puppy back to the buyer. No replacement will be given if the affected puppy is euthanized without the seller's permission.

If the puppy should die within the one-year warranty, buyer is required to have a necropsy performed to determine the cause of death. No replacement will be given if affected puppy dies and the buyer does not perform a necropsy or if the necropsy does not show any congenital defects listed above. If the necropsy report confirms it is genetic, the seller will replace the puppy with one of similar value. **NO** full or partial refunds will be given to the buyer. Affected puppy is by **REPLACEMENT ONLY**. Seller will try to match you with another puppy that is the same value as the original puppy. Pup may not be the same color or from the same parents. Buyer has the right to refuse and wait for another litter if they are not happy with the options. That does not mean the Buyer gets the first pick from the next litter, however, pup still must be close to equal value of the original puppy. Buyer and seller will work closely together in the replacement process, but the seller ultimately has the final say.

Transportation: Transportation of your new puppy is buyer's responsibility. I have many good resources to offer as far as Pet Flight nanny (preferred) where the puppy can be in cabin and the flight nanny can meet you at your closest airport; if available. These need to be booked at least a few weeks in advance to ensure that both dates work for both the nanny and the new owner. Because the nannies are on standby arrival times must be flexible. Some new owners may choose to pick them up in person. If schedule allows, meeting can be arranged within an hour of Polk City, Iowa.

Buyer's Responsibility: Buyer agrees to take good care of the puppy/dog as well as feed and house the dog properly. When outside the dog/puppy must be always on a leash or in a fenced yard for their safety. Buyer agrees to provide the puppy with the proper physical and emotional care. Buyer must agree to keep the dog/puppy indoors and make sure he or she is kept in air conditioned or heated environment when the weather permits.

Seller cannot guarantee adult size or conformation of the dog and can only give estimates of these things to the best of their experiences. Buyer hereby releases seller of such warranties. Buyer agrees to follow regular vaccine, and deworming of the dog/puppy throughout its life by a licensed veterinarian. Failure to do so causes the contract to be null and void. Dog/puppy will be up to date on all age-appropriate vaccinations and deworming when it leaves the premises of the seller, and those records will be provided to the buyer.

In a case of litigation, the venue shall be in Iowa. Should the buyer choose to pursue a disputed situation in a court of law, buyer understands that the place of venue and jurisdiction is to be in the county and state of which the dog/puppy was purchased from. It is further understood that the buyer will be responsible for all the seller's attorney fees. It is understood that the seller is not responsible for any veterinary medical expenses.

It is understood that this contract only applies to the original buyer and seller and is nontransferable. It is further understood that there are no other warranties, either expressed or implied to the said dog/puppy except as set forth in this agreement. By signing this health contract, the buyer agrees and accepts all terms and conditions implied in this contract.

Welcome to the Gucci Frenchies family and thank you for choosing us for your new best furry friend!
